Introduction

TIME ERA has been a leading producer and manufacturer of low-voltage switchgears and electrical components since 1989. Its dedicated range of products is suited for the domestic, commercial and industrial installations both locally and overseas.

The company's premises is located at the Kajang Technology Park, occupying a sprawling complex of approximately 75,000 sq. ft. Complementing it is a balanced force of trained, experienced management and production staff responsible for the daily operations. Domestic marketing and distribution is undertaken by a subsidiary company, **NES Electric (M) Sdn Bhd**, with its own storage facility to facilitate the logistics of nationwide distribution.

Into a new era of success

With quality as its forte, **TIME ERA** consistently maintain its stringent quality control standards. The results speak for itself. In recognition of the quality and excellence of its products, **TIME ERA** was awarded the prestigious Quality System MS ISO 9001 by SIRIM QAS (Standard & Industrial Research Institute of Malaysia) in 1999 and the Industry Excellence Award for Export Category by Malaysia's MITI (Ministry of International Trade and Industry) in 1997.

Besides fulfilling the needs of the local market, **TIME ERA's** range of products are exported overseas and have made inroads into major European, Southeast Asian and Middle Eastern markets.

Success has only spurred the company to set its goals higher. **TIME ERA** is continually consolidating its position through development of new products. The emphasis of quality and excellence is expected of a market leader and the company is stringent on delivery of goods. At the forefront will be new challenges and new horizons, all of which will be taken on with the same spirit and strength.

Ceiling Fan

Era 60" Ceiling Fan
(DS56-2)

Product Features & Functions

1. Perfect design with nice appearance
2. Powerful motor with double ball bearings, producing strong airflow
3. Keeping normal temperature during operation
4. 5-speed wall-mounted regulator with patent
5. Safety cable provided
6. Thermal fuse incorporated to fan motor to give added protection
7. Glossy spray painted finishing

Specification

Voltage/Frequency	: 220-240V~/50Hz
Power	: 75 W
Sweep	: 1474 mm
Motor class	: E
Motor diameter	: Ø 219 mm
Down rod	: Ø 22 300 mm
Rotor	: Ø170 15 mm
Stator	: Ø147 15 mm
Blades thickness	: 80.83 mm
Blades width	: 142 99 mm
Blades length	: 620 mm
Blades angle	: 7°(straight)
Motor speed	: ≥290 rpm
Max. temperature rise	: ≤85 K
C.O.P	: >2.6 m3/minute/W
